

James,

Thank you for your masterpiece. After reading it, I felt transported back to that time and place, as if I took a history and geography course. I learned alot. Looks like I should also visit \_\_\_\_\_ (translate the place). Four years ago, I visited England, France, Austria, Italy, etc... I love Paris' fine arts, Austria's opera. How do you like Opera? Each year, I must see the ballet and opera many times (S.F.). Sometimes my daughters treat. **Your oldest daughter come back yet! Previous plan is to go to Southern CA, are you planning on following the plan? I am envious of your daughters. My daughters are just so-so. Since coming to the US, I have been struggling to make a living. I frequently work during the night, so I do not see them frequently, so their performance is proportional to my involvement with them. I often blame myself.**

Just came back from work, thinking tomorrow is the weekend, I feel more relaxed. I can take a walk in the morning, contact nature, hear the birds singing (Sunday). I am doing my tax return.

I have not written a letter in multiple years. Please forgive my "childishness."

-Debby 3.24.95

P.S. The return address on the envelope is my company's. It's my personal habit for security.
